SARKAR OFFICE JAPAN KK

- We provide “Tailor-made Service” to fit the requirement of the client. We do not implement or believe in the template approach.
- We undertake assignments after initial assessment and internal due diligence. We normally provide our quotation and “Terms of Reference” (TOR) of the project after carrying out a thorough Q&A session with the client.
- We carry out the project based on the TOR. The client’s role & responsibility, including the support for specific technical issues and all other related matters, are usually outlined in terms of reference.
- We provide a hands-on approach and practical business support in a most cost-effective & time-efficient manner.
- We implement an assignment in various steps & phases (multi-tier system) which provides the client opportunity to judge and review the progress & enables them to make decisions based on the initial findings and actual results without making a long-term commitment from day one.
- We provide our “Client” with all the findings and market info without modifying the real content. (Unlike in the case of agents, distributors, brokers who normally tend to provide selective information to clients).
- We “Walk the Talk” with our client in the development process as an integral part rather than acting as a sole outsider advisor.
- We work as a team with the client, and in each implementation phase, we involve the client so that client can make an informed decision. Though we put forth our suggestions & rationales to our client, we always prefer the client to have the final say in all decision-making processes.
- We focus on enhancing the client’s core strength in the target market, as it is deemed appropriate without carrying out any over or underselling.
- We follow a simple principle of “job was taken to be delivered at the best of our ability & at client’s satisfaction” and provide a very flexible exit clause to our client in the event of unfavorable findings & result.
